

CodeSonar Analysis Report

Generated: May 16, 2026 at 10:06 PM

Project Summary

Analyzed 59 files with 0/6 AI steps. Found 0 issues and 0 warnings.

Tech Stack

Languages:

TypeScript

JavaScript

CSS

Frameworks:

Express

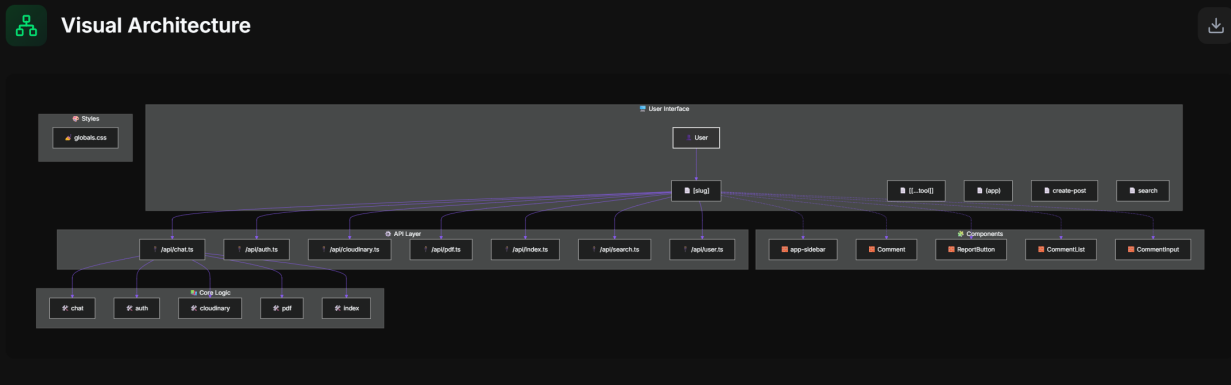

Next.js

React

Tools:

Tailwind CSS

Visual Architecture

Complexity Analysis

Score: 5/10

Total Files

59

Total Lines

6,227

Avg Lines/File

Errors & Warnings (61)

Console statement found in code (33 occurrences)

Suggestion: Remove or use a proper logging library

WARNING

TODO/FIXME comment incomplete implementation

Suggestion: Complete the implementation or create an issue

INFO

Function without return type annotation

Suggestion: Add explicit return type for better type safety

INFO

Console statement found in code (2 occurrences)

Suggestion: Remove or use a proper logging library

WARNING

Console statement found in code

Suggestion: Remove or use a proper logging library

WARNING

Async operation without error handling (3 occurrences)

Suggestion: Wrap in try-catch or add .catch()

WARNING

Function without return type annotation

Suggestion: Add explicit return type for better type safety

INFO

Console statement found in code

Suggestion: Remove or use a proper logging library

WARNING

Console statements found in code

Suggestion: Remove or use a proper logging library

WARNING

Function without return type annotation

Suggestion: Add explicit return type for better type safety

INFO

Console statement found in code (9 occurrences)

Suggestion: Remove or use a proper logging library

WARNING

Async operation without error handling (3 occurrences)

Suggestion: Wrap in try-catch or add .catch()

WARNING

Function without return type annotation

Suggestion: Add explicit return type for better type safety

INFO

Console statement found in code (45 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (34 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (2 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (2 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (46 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (3 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (29 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (7 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Usage of any type bypasses TypeScript safety <i>Suggestion: Use a specific type or "unknown" instead</i>	WARNING
Console statement found in code (3 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (4 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Usage of any type bypasses TypeScript safety <i>Suggestion: Use a specific type or "unknown" instead</i>	WARNING
Console statement found in code (10 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statement found in code (2 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING

Console statements found in code (2 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Console statements found in code (3 occurrences) <i>Suggestion: Remove or use a proper logging library</i>	WARNING
Usage of "any" type bypasses TypeScript safety <i>Suggestion: Use a specific type or "unknown" instead</i>	WARNING
Function without return type annotation <i>Suggestion: Add explicit return type for better type safety</i>	INFO
Large file (1633 lines) — consider splitting <i>Suggestion: Break into smaller, focused modules</i>	WARNING
Very large file (1633 lines) — maintenance risk <i>Suggestion: This file is difficult to maintain; split into sub-modules</i>	WARNING
Async operation without error handling (4 occurrences) <i>Suggestion: Wrap in try-catch or add .catch()</i>	WARNING
Function without return type annotation <i>Suggestion: Add explicit return type for better type safety</i>	INFO
Loose equality (==) — use strict equality (===) (30 occurrences) <i>Suggestion: Use === for strict equality checks</i>	WARNING
Large file (787 lines) — consider splitting <i>Suggestion: Break into smaller, focused modules</i>	WARNING
Very large file (787 lines) — maintenance risk <i>Suggestion: This file is difficult to maintain; split into sub-modules</i>	WARNING
Function without return type annotation <i>Suggestion: Add explicit return type for better type safety</i>	INFO
Function without return type annotation <i>Suggestion: Add explicit return type for better type safety</i>	INFO
Function without return type annotation <i>Suggestion: Add explicit return type for better type safety</i>	INFO

Async/operation without error handling (2 occurrences) Suggestion: Wrap in try-catch or add .catch()	WARNING
Function without return type annotation Suggestion: Add explicit return type for better type safety	INFO
Function without return type annotation Suggestion: Add explicit return type for better type safety	INFO
Async/operation without error handling (2 occurrences) Suggestion: Wrap in try-catch or add .catch()	WARNING
Console statement found in code Suggestion: Remove or use a proper logging library	WARNING
TODO/FIXME/comment is incomplete implementation Suggestion: Complete the implementation or create an issue	INFO
Function without return type annotation Suggestion: Add explicit return type for better type safety	INFO
Async/operation without error handling Suggestion: Wrap in try-catch or add .catch()	WARNING
Console statement found in code (2 occurrences) Suggestion: Remove or use a proper logging library	WARNING
Nested ternary operators (hard to read) Suggestion: Use if-else or extract to a function	WARNING
Function without return type annotation Suggestion: Add explicit return type for better type safety	INFO
Console statement found in code (2 occurrences) Suggestion: Remove or use a proper logging library	WARNING
Async/operation without error handling (2 occurrences) Suggestion: Wrap in try-catch or add .catch()	WARNING

Potential Improvements (50)

Long function: createPost Function has 60 lines. Consider breaking it into smaller functions. File: actions/createPost.ts Impact: Improves readability and maintainability	MEDIUM Effort: medium
Long function: user Function has 52 lines. Consider breaking it into smaller functions. File: actions/createPost.ts Impact: Improves readability and maintainability	MEDIUM Effort: medium
Long function: subreddit Function has 53 lines. Consider breaking it into smaller functions. File: actions/createPost.ts Impact: Improves readability and maintainability	MEDIUM Effort: medium
Long function: base64Data Function has 67 lines. Consider breaking it into smaller functions. File: actions/createPost.ts Impact: Improves readability and maintainability	MEDIUM Effort: medium
Long function: buffer Function has 69 lines. Consider breaking it into smaller functions. File: actions/createPost.ts Impact: Improves readability and maintainability	MEDIUM Effort: medium

Long function: post

MEDIUM | Effort: medium

Function has 52 lines. Consider breaking it into smaller functions.

File: actions/createPost.ts

Impact: Improves readability and maintainability

Long function: deletePost

MEDIUM | Effort: medium

Function has 64 lines. Consider breaking it into smaller functions.

File: actions/deletePost.ts

Impact: Improves readability and maintainability

Long function: user

MEDIUM | Effort: medium

Function has 63 lines. Consider breaking it into smaller functions.

File: actions/deletePost.ts

Impact: Improves readability and maintainability

Long function: post

MEDIUM | Effort: medium

Function has 58 lines. Consider breaking it into smaller functions.

File: actions/deletePost.ts

Impact: Improves readability and maintainability

Long function: User

MEDIUM | Effort: medium

Function has 72 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: bcrypt

MEDIUM | Effort: medium

Function has 73 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: jwt

MEDIUM | Effort: medium

Function has 74 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: asyncHandler

MEDIUM | Effort: medium

Function has 75 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: initializeStaticUser

MEDIUM | Effort: medium

Function has 75 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: staticUserId

MEDIUM | Effort: medium

Function has 76 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: hashedPassword

MEDIUM | Effort: medium

Function has 78 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: getUserWithMemory

MEDIUM | Effort: medium

Function has 79 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: user

MEDIUM | Effort: medium

Function has 80 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: login

MEDIUM | Effort: medium

Function has 81 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: user

MEDIUM | Effort: medium

Function has 79 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: isPasswordValid

MEDIUM | Effort: medium

Function has 73 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: token

MEDIUM | Effort: medium

Function has 66 lines. Consider breaking it into smaller functions.

File: backend/controllers/authController.js

Impact: Improves readability and maintainability

Long function: Chat

MEDIUM | Effort: medium

Function has 84 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: User

MEDIUM | Effort: medium

Function has 84 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: asyncHandler

MEDIUM | Effort: medium

Function has 84 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: createChat

MEDIUM | Effort: medium

Function has 85 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chatId

MEDIUM | Effort: medium

Function has 85 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: newChat

MEDIUM | Effort: medium

Function has 85 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: getChat

MEDIUM | Effort: medium

Function has 79 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chat

MEDIUM | Effort: medium

Function has 79 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: getUserChats

MEDIUM | Effort: medium

Function has 78 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chats

MEDIUM | Effort: medium

Function has 77 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: addMessage

MEDIUM | Effort: medium

Function has 76 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chat

MEDIUM | Effort: medium

Function has 81 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: newMessage

MEDIUM | Effort: medium

Function has 82 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: words

MEDIUM | Effort: medium

Function has 83 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: updateChatTitle

MEDIUM | Effort: medium

Function has 85 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chat

MEDIUM | Effort: medium

Function has 81 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: deleteChat

MEDIUM | Effort: medium

Function has 55 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: chat

MEDIUM | Effort: medium

Function has 51 lines. Consider breaking it into smaller functions.

File: backend/controllers/chatController.js

Impact: Improves readability and maintainability

Long function: asyncHandler

MEDIUM | Effort: medium

Function has 70 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: axios

MEDIUM | Effort: medium

Function has 70 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: cheerio

MEDIUM | Effort: medium

Function has 70 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: webSearch

MEDIUM | Effort: medium

Function has 71 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: searchResults

MEDIUM | Effort: medium

Function has 64 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: performWebSearch

MEDIUM | Effort: medium

Function has 51 lines. Consider breaking it into smaller functions.

File: backend/controllers/searchController.js

Impact: Improves readability and maintainability

Long function: asyncHandler

MEDIUM | Effort: medium

Function has 71 lines. Consider breaking it into smaller functions.

File: backend/controllers/pdfController.js

Impact: Improves readability and maintainability

Long function: axios

MEDIUM | Effort: medium

Function has 71 lines. Consider breaking it into smaller functions.

File: backend/controllers/pdfController.js

Impact: Improves readability and maintainability

Long function: pdf

MEDIUM | Effort: medium

Function has 73 lines. Consider breaking it into smaller functions.

File: backend/controllers/pdfController.js

Impact: Improves readability and maintainability

Long function: analyzePDF

MEDIUM | Effort: medium

Function has 71 lines. Consider breaking it into smaller functions.

File: backend/controllers/pdfController.js

Impact: Improves readability and maintainability

Packages & Dependencies (29)

Package	Current	Latest
express	4.18.2	4.21.2
mongoose	8.17.1	8.17.1
mongodb	6.18.0	6.18.0
cors	2.8.5	2.8.5
dotenv	16.3.1	16.3.1
helmet	7.1.0	7.1.0
morgan	1.10.0	1.10.0
express-rate-limit	7.1.5	7.1.5
multer	1.4.5-lts.1	1.4.5-lts.1
cloudinary	2.7.0	2.7.0
pdf-parse	1.1.1	1.1.1
axios	1.11.0	1.7.9
cheerio	1.1.2	1.1.2
nanoid	5.1.5	5.1.5
zod	3.25.76	3.24.1
bcryptjs	2.4.3	2.4.3
jsonwebtoken	9.0.2	9.0.2
express-validator	7.0.1	7.0.1
compression	1.7.4	1.7.4
express-async-handler	1.2.0	1.2.0
@types/node	20.10.0	22.10.2
typescript	5.3.2	5.7.2
TypeScript	Detected	
JavaScript	Detected	
CSS	Detected	
Tailwind CSS	Active	
Next.js	Active	
Framer Motion	Active	
React	Active
